Roodabeh Seif

AI-native Product Manager

Berlin, Germany | +49 159 0612 1262 | Gmail | LinkedIn | Portfolio

With a UX research and HCI background, I turn user evidence into requirements, priorities and responsible AI boundaries, and I bring creative solutions to complicated problems. I delivered **3 learning products** from research, built a **wellbeing app 0 to 1** with AI tools and co-built an **AI governance copilot** in a team. Now in Ironhack's AI Consulting & Integration Bootcamp.

Work Experience

Product Researcher & Product Manager, University of Siegen | Siegen | 2021 – 2025

Four publicly funded projects, each building digital products with and for underserved users: older adults, migrants and young people.

Product Manager, CrossComITS | BMBF | Cybersecurity education

- **Consortium coordination:** led the Siegen and partner teams in **Scrum iterations** and owned the **roadmap**, decision logs and **backlog prioritisation** on a GitHub Kanban board.
- **Research to requirements:** turned evidence from 3 user groups into personas, journey maps and **PRD-style requirements** with user stories and acceptance criteria for an OER learning platform.
- **3 learning products delivered:** a cybersecurity board game, metaphor flashcards and the OER platform; an **A/B test** decided the flashcard format.

Research for product requirements, NEBULA | BMBF | AI misinformation detection

- **Responsible AI requirements:** turned research on misinformation with vulnerable groups into requirements for a detection tool (**explainable, contestable, multilingual, human-controlled**) that fed the consortium backlog in Jira.

Research for product requirements, eVITA / Bo App | EU-Japan | Active ageing coach

- **End-to-end** design of the Bo App for the NeU fNIRS brain sensor with older adults: **independent sensor setup rose from 1 of 4 to 3 of 3** after the onboarding redesign.
- **Multilingual product** for German, French, Italian and Japanese users; improved the ABC App in Unity. Published at **OzCHI 2024**.

Research for product requirements, Surveillance Beyond Borders | Digital safety in exile

- **Trauma-informed research** turned into five dynamics, a framework and a **working prototype with five safety concepts**.

Business & Data Analyst Intern, Operatis Consulting | Germany | 2020 – 2021

- **Requirements and data integration:** process requirements and migration data (JSON to RDF, **Linux, Bash, Docker**).

Lecturer & Digital Competency Trainer, Islamic Azad University | Iran | 2015 – 2017

- **Teaching at scale:** digital competency workshops for **200+ students per year**; taught data structures and networks.

Selected Projects

AI-native Product Manager, AI Governance Copilot | Ironhack team project | RAG | EU AI Act

- **Owned the generation stage** of a RAG app that drafts cited monitoring plans for a fictional bank: prompts, **LLM integration**, automatic checks, **human review** and deployment.
- **Traceable output:** uncited gap findings **from 10 of 10 to 0**; correct placeholder types **from 40% to 73%**.
- **Safe by design: 0 internal documents in public output**, with **143 automated tests** passing.

AI-native Product Manager, Retune | B2C wellbeing app | Persian RTL | 0 to 1

- **End-to-end ownership** from research to a functional Persian MVP built with **Lovable**.
- **Pilot results: 86% onboarding success** and **78% correct understanding** of the privacy settings.
- **AI evals: 0 fabricated metrics in 60 AI tests** of the reflection feature; numeric accuracy at 68%.

Product Manager, Story House | Storytelling for children | 0 to 1

- **Research to prototype:** a **bilingual web-app prototype** for facilitators, with a **human-in-the-loop** AI assistant.

AI-native Product Manager, DARA | Workplace wellbeing | Self-initiated

- **Built in one day:** a browser demo with a **privacy-safe manager view** of aggregated team patterns.

Skills

Product, Discovery • MVP Scoping • PRD-style Requirements • User Stories & Acceptance Criteria • Roadmapping • Backlog Prioritisation • Scrum / Kanban • Stakeholder Management

AI Product, LLM Use Cases • RAG • AI Evals • Guardrails • Human-in-the-Loop • Prompt Iteration • Privacy by Design • Explainability

Research, Interviews • Co-Design • Usability Testing • A/B Testing • Thematic Analysis • Trauma-informed Research • Personas • Journey Maps

Technical, Jira • Confluence • Notion • Miro • Figma • Lovable • GitHub • Python • OpenAI API • Gradio • Unity • MAXQDA

Education

PhD Candidate, Human-Computer Interaction, University of Siegen | 2026 – present

M.Sc. Human-Computer Interaction, University of Siegen | Germany

M.Sc. Mechatronics Engineering, Islamic Azad University | Qazvin

B.Sc. Computer Science, Payame Noor University

Certificates

AI Consulting & Integration Bootcamp, Ironhack | ongoing

Microsoft AI Product Manager Professional Certificate, Coursera | in progress

Enterprise PM Fundamentals • Foundations of UX Design • DCitizens Summer School (EU Horizon)

Publications

- Mediating Digital Security: Participatory Learning with Older Adults. **ACM PDC 2026**.
- Building Bridges, Not Barriers. Book chapter, **Springer VS, 2026**. First author.
- User-Centred AI for Combating Misinformation with Vulnerable Groups. Book chapter, **Springer VS, 2026**.
- Prototyping and Evaluating Bo App: A Brain Measurement Device for Cognitive Training. **OzCHI 2024**.
- Mobile Robot Path Planning by RRT* in Dynamic Environments. **IJISA 2015**. First author.
